MANUFACTURER-BASED PURCHASE

Artisanal plaster ceiling tiles that incorporate traditional, geometric, and contemporary designs. Constructed with plaster and fiberglass these ceiling tiles will allow you to go above what you have envisioned. Made in the USA.

Egress Stairs that are pre-engineered, factory-built, code-compliant, and fast to install. Stairway details are produced in Auto CAD. Numerous choices of tread types and railings offer budget savings without sacrificing appearance.

Patented Acrylic Resin material prized for its aesthetic appeal and durability. Its ability to transmit light and encapsulate various textiles, botanicals, and colors makes it a sought-after choice for creating striking & functional design elements.

A premier provider of unique metal surfaces, systems, and solutions. They specialize in fabricating with aluminum to create unique and visually dynamic architectural products that contribute to LEED Credits.

WINDFALL is a Sustainable & environmentally responsible wood product. Select from a diverse selection of reclaimed and salvaged wood materials, including distinctive hardwoods and softwoods, ideal for eco-conscious builders and designers. With Cambio, you can mix materials and panel sizes to create your unique design. Install panels quickly and easily with Cambio's breakthrough magnetic installation system. Exchange panels as needed—or recreate the entire wall.

DISTRIBUTION-BASED PURCHASE

Bobrick is the world's largest manufacturer of stainless steel toilet accessories. Known for their high-quality, durable solutions for commercial and institutional spaces.

Koala Kare specializes in premium baby changing stations and childcare products for public facilities, emphasizing safety and convenience for parents and caregivers.

Budget-sensitive stainless steel toilet accessories for new construction or renovation where tight budget parameters are a concern.

The market's #1 choice for high-end phenolic lockers. Constructed from high quality Trespa® Athlon® or Arpa panels.
